"IT'S NOT THE DESTINATION BUT THE JOURNEY THAT MATTERS"

As someone who has always believed that binge-watching ruins sleeping habits, when the thought of binge-eating wrecking snacking habits crossed their mind, they decided to give Makhana a twist. Initiated with just 5 flavours, the goal was to allow people to binge snack without compromising their health.

We have successfully created a Pan-India presence in our 7+ years of journey by transitioning from just 5 flavours to a snack-verse of 15 flavours that include Raw Makhana. We have never missed an opportunity to improve the quality and snacking experience as we have expanded our range of flavours. With the advancement of packaging technology such as UV sanitization and vacuum-sealed packaging, we have pledged to provide India with its own guilt-free snack.
